Hi Carter:

Attached are some additional comments from Kathleen. She noted that she thinks the document is in really good shape and you've all done a great job. Let me know if you don't get a response from HQ by Friday and Kathy and I can reach out to them. Thanks so much for your efforts on this project.

Feel free to call or email with questions.

Nicole

Karin,

Attached is the revised Rosemont draft referral statement for your review and consideration. This has been revised in accordance with discussions that R9 has been having with regard to content, format and approach. As Kathy noted, this document is still in a draft form but hopefully will give you a sense of the nature of the arguments that we are constructing.

If you have any questions or comments that I can help to address, please don't hesitate to let me know.

I hope you have a nice weekend.

-Carter

Karin -

## Ex. 5 - Deliberative Process

I am having shoulder surgery tomorrow, so I expect to be out of the office most, if not all, of next week. Connell will be acting for me. Please send any feedback on this draft to Carter, Connell, and me.

Thanks-  
-Kathy

Hey Rob and Elizabeth,

FYI – I am starting to flesh-out the risk review framework. It remains very much a work in progress. But, I thought I would give you a peek in case you need something sooner than later.

## **Ex. 5 - Deliberative Process**

I will give it a fresh look after New Years. Perhaps later in January we can schedule a time to chat it up.

In the meanwhile.....

Happy New Years!

**Subject:** Questions for ORC associated with Rosemont Referral

Rich and Tom,

Attached is the rough rough draft of the referral statement (I recommend going into the review tab and putting the track changes view on “final” if you want to read through it, as it is pretty marked up). There are a number items that I would like to discuss with one or both of you as early as possible on Monday. I have highlighted in bright green the key comment boxes and one place in the text where Kathy and/or I have a question or statement that we were hoping for your assistance in addressing.

There is not really an “ask” (to use Horst’s term) of you in terms of providing any language at this point. I just wanted to provide you with this draft as a basis for hopefully having a discussion of these questions on Monday.

Thank you.

- Carter

RosemontReferralStatement\_4\_12\_16.docx

Hi Connell,

Attached is the internal draft deliberative Rosemont Referral Statement. I really appreciate you taking the time to give this a look to help aim me in the right direction. As I mentioned, I know I've got a lot of the pieces in place, but it doesn't feel nearly as tight as I know it needs to be given the level of scrutiny it is certain to receive (even if it doesn't ever get used!).

Thanks.

Can you please send the electronic copies of all the final documents in the Rosemont briefing packet that Liz dropped off for the fact sheets only, including the Gantt chart timeline? Thank you for all your hard work in pulling together these materials! Jared was very impressed with the briefing material. Thanks again and have a great trip!

**Subject:** RM Briefing papers for Jane's review

Hi Jane - attached are 4 briefing papers for Susan, Jared, Horst and Russ, that I'd like to slip into the overall package of materials you saw Trina list. One is a 3-pg overview, one is a groundwater impact summary, one is mitigation sites, and one is ADEQ/anti-deg. Elizabeth and Rob are in tomorrow to compile those hard copies for at least those 4 people, so if you think the attached look ok for inclusion, please let them know. If we want to get these four items to the DC contingent for their flight out, you or I could just email directly as well. Thanks, and safe travels! - Jason
